Re: Northern Line upgrade

You are well aware of the impact the current engineering works are having on Northern Line services south of Kennington – particularly on weekends.

I have been in touch with London Underground several times to express my concern at the extent of the closure programme, and the replacement bus services offered to my constituents, which have frequently failed to meet the demand put on them.

Before Tubelines was taken into public ownership you expressed your own displeasure at the high number of weekend closures requested to complete the work.

Now that Tubelines is under London Underground management I would appreciate a meeting to discuss the implications of this for the future of the Northern Line upgrade, and the possibility of agreeing a more user-friendly programme of engineering works with better alternative transport arrangements.

I look forward to hearing from you soon.

Yours sincerely,

Rt Hon Sadiq Khan
Member of Parliament for Tooting
